

Rottweil

BI LOAD
STEEL MEETS BISMUTH

FE LOAD
TWO LAYERS OF STEEL

ROTTWEIL BI-LOAD, ROTTWEIL FE-LOAD

Fürth, Germany. At IWA 2020, ROTTWEIL will be launching a new, series of lead-free high-performance hunting shells onto the market that are without equal anywhere in the world. These loads combine high performance – approaching that of lead shells – and a reasonable price. The combination of different layers of plated shot with the clever use of components has resulted in unique lead-free hunting shotgun shells that exhibit high energy output along with an excellent shot pattern. 100% lead-free, 100% Rottweil quality.

STEEL MEETS BISMUTH

A world first:
Bismuth + Steel

High-quality lead-free hunting shotgun shells with two different materials

- Heavy, red bismuth shot in front for more energy
- Tin-plated steel shot in back for a perfect shot pattern and a higher hit ratio

BI-LOAD 12/76 HP MAGNUM 40g

8 g of bismuth shot 3,8mm (N°2)
+ 32 g of soft iron shot 3,5mm (N°3)
= 40 g pure lead-free power

BI-LOAD 12/70 HP 36g

8 g of bismuth shot 3,8mm (N°2)
+ 28 g of soft iron shot 3,5mm (N°3)
= 36 g of pure lead-free power

The benefits of the new BI-LOAD series at a glance:

- One-of-a-kind combination: BI-LOAD is loaded with a combination of steel shot and bismuth shot
- Environmentally friendly: 100% lead-free shot
- The bigger the better: ideally suited to all types of waterfowl
- The best of both worlds: bismuth is lead-free, heavier than soft iron, and as soft as lead
- Visible technology: case, cup wad, and closing disc made of transparent material
- High-quality: reliable primer, abrasion-resistant case printing, high brass, stable packaging
- Visual support: the red shot in front makes the pattern easier to see

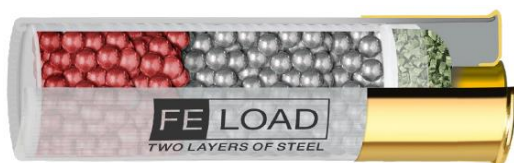

TWO LAYERS OF STEEL

Unique:
10% heavier shot load

High-quality lead-free hunting shotgun shells with two different layers of steel shot

- Heavy, red 3.8 mm steel shot in front for a higher energy output
- Lighter, tin-plated 3.3 mm steel shot in back for a perfect pattern

FE-LOAD 12/76 HP MAGNUM 40g

16 g of soft iron shot 3,8mm (N°2)
+24 g of soft iron shot 3,3mm (N°4)
=40 g of pure lead-free power

FE-LOAD 12/70 HP 36g

14 g of soft iron shot 3,8mm (N°2)
+22 g of soft iron shot 3,3mm (N°4)
=36 g of pure lead-free power

The benefits of the new FE-LOAD series at a glance:

- Over 10% more payload: FE-LOAD is more than 10% heavier than conventional soft iron shotgun shells and is therefore the heaviest steel shotgun shell in its caliber.
- Environmentally friendly: 100% lead-free shot
- The bigger the better: ideally suited to all types of waterfowl
- Visible technology: case, cup wad, and closing disc made of transparent material
- High-quality: reliable primer, abrasion-resistant case printing, high brass, stable packaging
- Visual support: the red shot in front makes the pattern easier to see

Article no.	Designation	Caliber	Shot size [mm]	Shot no.	Payload [g]	Content per package [pcs.]
2414042	BI-LOAD HP MAGNUM 40 g	12/76	3.8 (BI) + 3.5 (FE)	2 (BI) + 3 (FE)	40	10
2414043	BI-LOAD HP 36 g	12/70	3.8 (BI) + 3.5 (FE)	2 (BI) + 3 (FE)	36	10
2414044	FE-LOAD HP MAGNUM 40 g	12/76	3.8 (FE) + 3.3 (FE)	2 (FE) + 4 (FE)	40	10
2414045	FE-LOAD HP 36 g	12/70	3.8 (FE) + 3.3 (FE)	2 (FE) + 4 (FE)	36	10

ROTTWEIL is a quality brand of RUAG Ammotec GmbH

The brand name refers to the former production site of shotgun cartridges in the city of the same name located in Germany's Black Forest region. According to old documents, the foundation of Pulverfabrik Rottweil am Neckar dates back to the 15th century. The brand name ROTTWEIL became famous thanks to the red Waidmannsheil shotgun shell and has remained so since 1921 down to the present day thanks to the legendary "black Waidmannsheil" with its paper case. Thanks to their excellent quality and performance, ROTTWEIL hunting and sport shot cartridges enjoy an exceptionally strong reputation and are equally esteemed by hunters and shooters alike.

RUAG Ammotec belongs to the Swiss technology company RUAG Holding AG with its headquarters in Bern.

RUAG develops and markets internationally sought-after technology applications in the fields of aerospace and defence for use on land, in the air and in space. 56% of RUAG's products and services are destined for the civil market and 44% for the military market. The Group is headquartered in Bern (Switzerland). It has production sites in Switzerland and in 15 other countries in Europe, the USA and Asia-Pacific. RUAG generates sales of approximately CHF 1.96 billion and has over 9,200 employees – 400 of whom are trainees.
